Product Name:

Impero Classroom Management Software

Product Manufacturer:

Impero

Product Description:

Lab and Classroom Computer Management Software

(Attach Product Technical Sheets)

Performs a multitude of functions, including allowing a teacher to
easily and efficiently view and control the computers, and gives IT
staff some powerful tools to remotely troubleshoot and maintain
the computers.

Additional Comments:

featured too numerous to list here. www.imperosoftware.com

EVALUATION CRITERIA

A. Product Reliability

1. Vendor / Product track record

Over two years of super-high quality support, one of the best of all of my vendors.

2. Vendor support required

Initial set-up, operation help and tips.

3. Ease of use

Very easy...None of my teachers had any issues.

4. Support required by RIC / school district

Very low. Just install and it works.

5. Potential to become "White Elephant"

not likely due to constant upgrades and other device inclusions.

6. Training requirements

Very little. Screens are very intuitive.

B. Product-Price / Acquisition

1. Cost effectiveness

It's not cheap, but has paid for itself with the use of it's features

2. Acquire via NYS Contract or local bid

NYS Contract

3. Cost of operation and support

Yearly licensing per workstation

4. Do any legal or contractual issues exist

None that we are aware of.

C. Product-Relationship to Other Standards

1. Compatibility to existing Standards

After using for two years on different PC's, have never seen any
incompatibility issues.

2. What other options are available

Price includes every feature product offers.

3. Relationship to previous research and changes since that time

D.

BOCES-Service Needs

1. Define and explain the current need

To efficiently and effectively control computers in classrooms and labs.

2. What existing CoSer and RIC Service does it fall under

Possibly Model Schools/CSLO...

3. What is the scope and size of the school population to be served

We currently are using it with 290 PC computers on our network.

4. Instructional and/or administrative goal supported

Keep students on task, efficient troubleshooting/repair

5. Results of survey determining school district interest in using this product

Have had a few districts express interest in using if it could be purchased
under a CoSer.
